V. C. French, Publisher

ELECTIONS IN TWO DIVISIONS IN M. D. OF MONTGOMERY

C. R. Shantz Elected by Acclamation for Division 3. Elections in Two Divisions on Saturday Next. Meeting Favors Contracts for Road Work. Appointment of Weed Inspector Considered. Heated Discussion over Road and Ditch. Auditor's Report and Financial Statement Adopted.

The annual meeting of the Municipality of Montgomery, No. 453 held in the U.F.A. hall on Saturday, February 21.

There was a fair attendance of ratepayers present and the Reeve and all the Councillors with the exception of Councillor Huard (who was prevented by sickness) were present. The meeting was opened by the Returning Officer.

It was moved by R. Ballhorn and seconded by T. T. Jevne, that V. E. Thompson be chairman. Carried.

V. E. Thompson then took the chair. The minutes of the last annual meeting were then read.

It was moved by R. Ballhorn and seconded by A. Murray that the minutes be passed as read. Carried.

The secretary then read the financial statement and Auditor's report.

It was moved by P. C. Peterson and seconded by E. R. Rasmussen that the Auditor's report and the financial statement be adopted as read.

The councillors for Divisions 2, 3, 4, 5 and 6 gave a report of their work during their terms of office.

A discussion arose over work done on a road and ditch constructed in Division 4. After a somewhat heated discussion it was moved by F. Lucas and seconded by John Berry that the discussion cease at once.

At 3 o'clock the Returning Officer called for nominations for Councillors in Divisions 3, 4 and 6.

The question of the eradication of noxious weeds was then taken up by the meeting, the matter being fully discussed from all points of view.

It was moved by G. F. Root and seconded by P. C. Peterson that the appointment or otherwise of a weed inspector be left to a decision of the council.

The question as to whether the road work should be done by day labor or in former years, by day labor, was then discussed.

It was moved by E. R. Rasmussen and seconded by G. F. Root that as much road work be done by contract as could possibly be let.

The following nominations were handed to the Returning Officer: Div. 3—C. R. Shantz.

**BOY MINSTRELS
GIVE A CONCERT**

The Wetaskiwin Boy Minstrels gave their second concert of the season in the Methodist church on Friday evening last and were greeted with an over capacity house. The program consisted in the introduction of new songs and skills that greatly amused the audience.

Items of interest were Herman Thomas in a darky sketch "Carry Me Back to Old Virginia," Victor Chandler in a French dialect piece, Frank Morrison in two dark sketches and Clifford Asp in a prophetic forecasting some future events to take place in Wetaskiwin. Among the events noted were the lighting of the Parker Whiteway in 1956, the reduction of the tax rate in 1972, and the opening of the public memorial library in honor of the Wetaskiwin boys who lost their lives in the great war of 1914-1918. For this purpose the old C.P.R. station would be used, it having been abandoned with the advent of aerial transportation. The opening would take place about the year 2014 A.D. In the prophesy were figured the descendants of some of our leading citizens taking part in the city council and realizing some of the unfulfilled aspirations of their worthy ancestors.

Master Stanley Chandler appeared again in his mystic-magic act which was embellished by spirit writings and several new lectures. The presentation of "The Midnight Intruder" a screaming farce which kept the audience in convulsions of laughter throughout, completed the program. The boys are preparing to stage a show at Millet under the auspices of the Millet Ladies' Aid, on March 13.

Division 4—A. S. Craig and Richard Ballhorn.

Division 6—Fred Freeman and John Maynard.

At 4 o'clock the Returning Officer declared nominations closed and that C. R. Shantz was elected by acclamation for Councillor for Division 3, and that polls would take place in Divisions 4 and 6, on Saturday, February 28, 1925.

The places of poll will be:

Div. 4—John Knox school and the Peace Hill school.

Div. 6—Crooked Lake school.

Meeting adjourned.

LADY CURLERS RETAIN THE FRENCH CUP

Two rinks of lady curlers came down from the Royal Victoria Curling Club on Monday to play for the possession of the beautiful trophy donated by H. R. French, but were unsuccessful in their attempt, and the cup still reposes in the donor's jewelry store.

Mrs. Grigg's rink, which was composed of Mrs. Reed, Mrs. Sutherland and Mrs. Ramsey, met a quartet composed of Mrs. McMurdo (skip), Mrs. Wiseman, Miss Beulah Robinson and Mrs. C. D. Enman, and after a hard game, came off the ice with the short end of a 15-9 score.

Mrs. McKee, the other Edmonton skip, had as her assistants, Mrs. Forviller, Mrs. Lambert and Mrs. Hessel, and they went down to defeat before a rink composed of Mrs. Miquelon (skip), Mrs. Prest, Mrs. Childy and Mrs. Groves, the score being 11-5. The Wetaskiwin rinks therefore won by a margin of 12 points.

The visiting ladies were tendered a banquet at the Dringt hotel, when cards, dancing and singing were enjoyed until the arrival of the train. Miss Orlo Miquelon rendered several selections on the piano, and Mrs. Groves sang "The Roarin' Game."

BRANTING DIES; THRICE PREMIER OF THE SWEDES

Stockholm, Feb. 24—Hjalmar Branting, thrice premier of Sweden, and one of the most active of European statesmen in the affairs of the League of Nations, died here today, aged 64.

Hjalmar Branting, the first Socialist prime minister of Sweden, and one of the outstanding men of that country, was regarded by the Swedish people as their country's most prominent international politician.

Devoting virtually his entire life to the amelioration of the conditions of the working classes and the attainment of the Social Democratic dream of universal peace by universal understanding, Dr. Branting worked unceasingly and with a fine optimism for the realization of his ideals.

During the world war, Dr. Branting was outspoken in his criticism of Germany, and in May, 1917, he made a bitter attack upon the German government for its submarine warfare, characterizing Germany's ruling clique as "the common enemies of mankind."

REDISTRIBUTION NOT THIS SESSION

Edmonton, Feb. 24.—The supporters of the government in caucus on Saturday, after long and detailed discussion, decided against redistribution of seats at the present session, but to hold another session after the present one. It is understood, however, that this is a tentative plan and that if something unforeseen, of an emergency nature, which may alter the situation materially, occurs, the government will not be bound by the decision. The finding was practically unanimous, only one of the members, a member of the far north, favoring an earlier appeal to the country.

STRONGLY URGES COMPLETION OF LACOMBE LINE

The completion of the Lacombe and North Western railways by the government was strongly urged by S. G. Tobin, Liberal member for Leduc, in the debate on the speech from the throne on Wednesday afternoon. The opinion was expressed that the construction of only the twenty miles more as proposed would be of little benefit.

The encouragement of immigration was also advocated by Mr. Tobin, who contended that the government's policy in this respect would not bring the desired results speedily enough.

Robert Pearson, Independent, Calgary, recommended the adoption of a provincial income tax in order to increase the revenue sufficiently to meet the present demands.

Other members who contributed to the debate were E. E. Sparks, Farmer member for Wetaskiwin, and the Hon. George Hoadley, minister of agriculture. The latter took strong exception to various statements made by members of the opposition earlier in the debate, and especially to the remark of J. M. Dechene, Liberal member for Beaver River to the effect that the guiding hand in the former group was one of the "racketeers."

"The man who holds the destinies of this government in the hollow of his hand sits right there," Mr. Hoadley declared, looking at the Premier and bringing his fist down on the desk of the attorney general.

Mr. Sparks in continuing the debate, advocated an honest system of immigration as opposed to the system employed in several sections in encouraging settlement through gross misrepresentation. The province needed more settlers, but care should be taken to see that the people who were brought in were fully aware of conditions and that they were placed in such sections where they had a reasonable chance of making good.

There were parts of the south that were never suitable for agriculture, but as a result of publicity that had been broadcasted in the old country and in other parts, this portion of the province had been settled up. The authorities led the intending immigrants to believe that conditions existing in the southern part of the province were ideal, but most of them had found to their sorrow that it was a very difficult matter to make a living there, he contended.

There was plenty of good land in the province and by carefully selecting immigrants the vacant areas of land suitable to farming would soon be filled up. He contended, however, that settlement of the vacant areas should not be undertaken on too large a scale.

In referring to the present system of grain grading discussed briefly the previous day, Mr. Sparks said that the organization of the wheat pool had not resulted in any change in the method of grading. Regardless of whether a farmer belonged to the pool or not, all of the wheat was graded in the same manner.

The speaker in discussing conditions in the south country took occasion to express his opinion on a certain manner as to the action of the government in appointing a board of experts to make a survey of conditions. This information could easily be given by any group of practical farmers who had lived in that country. They might not have the technical knowledge, but they knew conditions from their own experience, and such a report would probably be the most valuable in the long run, he declared.

The Wetaskiwin member also made an appeal for more state legislation, contending that there was too much averaging of laws from year to year. The average person was unable to find out a considerable study to find out what existing laws were.—Bulletin.

WOMEN'S INSTITUTE

The Women's Institute will meet at the Institute room, Peace street, on Thursday, February 26, at 3 p.m. A program has been arranged and a social half hour will be spent. Newcomers as well as members are cordially invited to attend.

The Institute are securing a library and books will be loaned free of charge to members.

The Women's Institute are giving a Novelty Dance in the Elks' hall on the night of March 17 (St. Patrick's Day). Tickets are \$1.00 for dance and lunch.

"THE PSYCHOLOGY OF INSANITY,"

Subject of Address by Dr. Gundesen to Kiwanis Club on Tuesday Evening.

INSANITY HEREDITARY

Local Club Decides to Enter International Attendance Contest

Owing to several members being absent from the city, the attendance at the weekly luncheon of the Kiwanis Club was not as largely attended as usual, but, nevertheless, a most enjoyable evening was spent. Dr. C. M. Gundesen was the principal speaker, and he gave a very interesting and educational address on "The Psychology of Insanity."

The president, H. R. French, presided, and announced that the executive had decided to enter the attendance contest with the hope of winning a beautiful shield, given as the prize for the club having the highest percentage of attendance during the period of the contest. This contest commences next meeting, March 2, when it is hoped that there will be one hundred per cent attendance of the members.

Dr. Gundesen, in his interesting address, stated that the history of insanity dates back to the dawn of history; and from then till the middle ages they were looked upon as possessing a good or evil spirit. Later lunatics were thought to be witches. In the nineteenth century the modern conception became accepted, i.e., "insanity is a prolonged departure from the individual's normal standard of thinking, feeling and acting."

The most important causes are hereditary.

Dementia is congenitally acquired. Senile dementia is of the latter form. Pseudo senility has been known to be hallucinations; while false beliefs are delusions. A dissociated idea is known as a complex. A painful experience in our past will form a complex which we will try to repress or forget. This does not cease to exist, and may suddenly come into the field of consciousness and produce "double personality" or it may express itself indirectly. Examples of these were given.

The difference between sanity and insanity is not a definite one, many symptoms are present in both. Many lunatics are very intelligent, e.g., Parnold. In Dementia praecox there is a splitting of the mind so that it does not act in harmony, but the intelligence, emotions and will act separately. Though there may be no lack of intelligence at first in these cases, dementia soon develops and progresses.

NO ELECTION IN M.D. OF BIGSTONE

The annual meeting of the Municipal District of Bigstone was held at Falun on Saturday last, with a representative attendance of the ratepayers from all divisions of the district. The financial statement was read, discussed and adopted. The work of the district met with the general approval of the meeting, with the result that the vacancies on the board were filled by acclamation, the new elected councillors being: Division 2, J. L. G. Rattry; Division 3, O. G. Olson; Division 6, J. H. Burleigh.

ARE GIVEN LIFE MEMBERSHIPS

A very enjoyable evening was spent at the home of Mrs. Griffiths on Tuesday last week, by the W.M.S. of the Methodist church.

After the regular program of the evening, the president, Mrs. Thomas, called upon Mrs. Vars to say a few words, and she, in a few very fitting remarks, spoke of the appreciation of Mrs. Miller's knowledge of and work in the society, and asked her, on behalf of the Society, to accept a life membership, and presented her with a certificate.

Miss Thomas then presented Mrs. Williamson with a life membership and certificate on behalf of the Society, and expressed appreciation of her untiring work with the band. Both ladies were greatly surprised, and expressed their thanks in a fitting manner.

The ladies' quartette sang "His Way is Mine," after which refreshments were served and a very enjoyable social hour was spent.

The Society now has seven life members, which is felt to be very gratifying, as the Society is but young in Wetaskiwin.—(Con.)

The Women's Institute recognize March 17th, St. Patrick's Day, as Institute day, and will put on some sort of entertainment on that date. Particulars will be advertised in next week's news columns.

WELLS WINS HUDSON BAY COMPETITION AT EDMONTON BONSPIEL

Three rinks of Wetaskiwin curlers, skipped by H. J. Wells, Geo. Grabham, and W. Prest, went to Edmonton last week to compete in the Edmonton Bonspiel, and the rink skipped by H. J. Wells succeeded in winning the Hudson's Bay event, one of the primary events of the spiel. In this event Prest lost his first game to Dean, of Provost, by a score of 17-7, and Grabham also lost his first game to Gillespie, of Edmonton by 13-6. Wells defeated Thompson of Ponoka in the first game, Price of Lacombe to put himself in the jewelry, Scofield of Edmonton, to make second place, and on Wednesday evening he defeated Mann of Edmonton 11 to 6 to win the big event.

In the Grand Challenge, Grabham got away to a good start by winning from Richards of Edmonton by 10-6, but lost the next game to Morrison of Lacombe by 13-5. Wells also won his first game from Carre of the Royals by 12-8, but succumbed to Mather of Castor by 10-8. Prest lost his first game in this event to Trimble of Lacombe by 16-13.

Prest won two games in the Bank of Montreal, defeating Barker of the Royals Club 11-9, and Carre of Edmonton 11-6, but lost down before Malcolm of Unity by 13-10. Grabham also won two games in the Bank of Montreal, defeating Lerimer of Bentley 14-9, and Danlop of the Royals 11-9, but took the short end of a 11-12 score when he met McTavish of Granites.

In the first round of the Ramsey competition, Prest lost to Deaton of the Thistles, 9-8, and McIntyre of the Royals defeated Wells 16-8. Grabham won from Edwards of Ponoka 14-7, but lost to Slavik of Viking, 12-10.

In the Kirkland, Prest won from Hambridge of Kerrobert 11-5 and then lost to Milligan of Mannville, 13-6. Grabham lost his first game to Watson of Kilam 8-7, and Wells went down 6-11 to Trimble of Lacombe 10-9.

Judging by the scores by which the Wetaskiwin rinks were defeated in the different competitions, the Wetaskiwin curlers did not allow any one to defeat them very badly, showing that they are well able to take care of themselves in fast company on the ice.

LOCAL CURLERS FAILED TO LIFT CUP AT KILLAM

Two rinks of Wetaskiwin curlers went to Killam Monday evening to play for the Whyte & Orr cup, but were unsuccessful in winning it from the present holders. They report having had an excellent time, however, as the Killam players proved themselves to be good hosts. One rink composed of H. R. French (skip), W. B. Poops, Frank Aboussay and C. W. Niles, lost their game, while the other rink, composed of H. B. Hanson (skip), J. W. Heric, J. S. Orr and L. H. Nowville, won their game. The two points were 30 to 23 in favor of Killam.

ELECTION IN THE M.D. MONTGOMERY

The nominations to fill the vacancies in three of the divisions in the Municipal District of Montgomery took place on Saturday afternoon last at the annual meeting, which took place in the U.F.A. hall, and was presided over by V. E. Thompson, returning officer.

In Division 3, C. R. Shantz was elected by acclamation to succeed L. H. Nowville, who has removed from the district.

In Division 4, Richard Ballhorn and A. S. Craig were placed in nomination. There is also an election in Division 6, with Fred Freeman and John Maynard as candidates.

Voting will take place on Saturday next, February 28, from the hours of nine to five, at John Knox school, with Tony Hadick as deputy returning officer; the Crooked Lake school, with H. S. Williams, deputy returning officer, and the Peace Hill school, with Ed. Dickau, deputy returning officer.

SUICIDE AT PONOKA

A sad case of suicide was enacted in town Tuesday forenoon about ten o'clock when James Marshall, a well known and highly respected citizen, ended his life by putting a bullet through his head. Mr. Marshall had been in poor health for some months—ever since the death of his beloved wife—and was for a time in the South Edmonton hospital, but returned little or no better.—Ponoka Herald.

CITY PURCHASES TRUCK FOR FIRE DEPARTMENT

Citizens Address Council Protesting Against Service Tax. Objection Made to Proposed Tax on Farm Property. License Bylaw to be Enforced by Issuing Summonses. Tree Planting at Cemetery to be Discouraged. Two Children Sent to Department of Neglected Children.

The regular meeting of the city council was held on Tuesday evening with all the members in attendance except Al. Gotthard.

After the adoption of the minutes of the previous meeting, S. H. Farnham, Chas. Condie, J. H. Walker and others, addressed council regarding the levying of the service tax, maintaining that it was not a fair tax, and not equitable, and asked that this method of raising money be dispensed with. Mayor Montgomery explained that the city solicitor was going into the matter and would give a report to the council.

ROSEDALE RANCH IS BOUGHT BY BRITISH GOVT., S.A.S., C.P.R.

The largest real estate transaction for some years in the Bittern Lake district has just been completed whereby the old Rosedale Ranch has again changed hands. The purchasers are the British government, the Scottish Aid Society and the Canadian Pacific Railway. It is understood that it is the intention to establish a farm training school for English boys on part of the property and the balance will be divided into 160-acre farms and settled by Hebrideans.

Mr. Dave Conroy is the agent for the purchasers and will have full charge of the work of settling and improving the property.

It will be remembered that this ranch was originally the property of A. S. Rosenfeld. He 1905 he sold it to the Alberta Farm and Livestock Co., who operated it for five or six years and they in turn sold to the International Realty Co. in 1911, who disposed of it to the Rosedale Estates, Ltd., in 1913. The Rosedale Estates operated the ranch in a large way up about three years ago, when they closed down. Since then nothing much has been done with the place, but the present scheme should make the property a decided asset to the district.—Canadian.

The following accounts were passed for payment: General, \$231.13; Electric Light, \$702.74; Waterworks, \$105.65; Supplementary, \$26.85.

The finance committee reported that the city's estimate for 1925-1926, a financial statement of the city for \$60.00 had been accepted, and recommended that the department of education be requested to levy a tax of 12 mills on farm lands outside of city limits. The report was adopted.

The utilities committee recommended the purchase of a testing instrument at a cost of \$17.00. The report was adopted.

Chief of Police Kingzett reported that very few business licenses had been taken out, and asked for instructions regarding collection. The police will be instructed to issue summons against all those who have not paid their licenses on or before the 10th of March.

The offer of Ed. Johnson to purchase Eranson property on Pearce street east for the sum of \$350.00, was accepted.

Mr. Trautman, of near Camrose, offered to sell a team of dapple grey Percheron horses to city for fire department. The letter was referred to the police committee.

Ald. Chandler reported that two children had been sent up to the Department of Neglected Children for shelter, and that city would likely be responsible for their maintenance.

The chief of police will be instructed to confer with the city solicitor respecting collection of permit from party responsible for moving building a few days ago.

The council decided to discourage the planting of trees in cemetery by private parties, and the property committee was instructed to have signs painted and placed at cemetery corners notifying the public to that effect.

The secretary treasurer was instructed to write Hon. J. E. Brownlee asking for information respecting the refunding of a portion of the fines under the Liquor Control Act.

The aldermen discussed at some length the proposal to purchase a motor truck for use of fire department. It was decided to purchase a Packard, complete, at a cost of \$950.00.

Meeting adjourned.

E. E. Sparks, the member in the Alberta legislature for Wetaskiwin, has been appointed on three important committees of the house, namely, the Public Accounts Committee and the Agricultural and Colonization committee.

Mr. Trautman, the member in the Alberta legislature for Wetaskiwin, has been appointed on three important committees of the house, namely, the Public Accounts Committee and the Agricultural and Colonization committee.

ALBERTA TO GET RESOURCES FROM FEDERAL GOV'T

The negotiations between the
Dominion and provincial governments
for the transfer of the natural re-
sources to Alberta have been finally
completed, according to an announce-
ment made in the legislature Monday
afternoon by Premier Greenfield in
the course of the debate on the
speech from the throne. It was un-
derstood some time ago that there
was a likelihood of an agreement hav-
ing been reached but this is the first
announcement that has been forth-
coming from the government that the
offer by the Federal authorities has
been definitely accepted on the part
of the province by the Premier.

The province is to take over the
mineral resources and will receive a
payment of the amount of the pre-
sent subsidy in lieu of funds for three
years.

The terms of the agreement will
become final as soon as ratified
by the parliament of Canada and the
provincial legislature.

There are still a number of minor
details to be settled, but it is not
anticipated that any difficulty will be
encountered in this respect.

"Discussions have taken place dur-
ing the year between the federal min-
isters and ourselves," stated the pre-
mier. "At first discussion little pro-
gress was made, and it became in-
creasingly apparent that there was
little hope of the representatives of
the two governments getting closer
together."

I had another interview with the
prime minister on December 16 last.
At that interview, the offer previously
made to the province by the Do-
minion government and which still re-
mained for acceptance by the pro-
vince was definitely accepted by my-
self on behalf of the provincial gov-
ernment. In the following letter which
I will read to the house.

"The prime minister then intimated
to me that he desired to make some
further investigations and that in the
meantime my communication of De-
cember 16 and the result of my in-
terview with him should be withheld
from the press."

"I received a wire from the prime
minister just before entering the
house today which releases me from
that obligation, and I hope to take
the correspondence tomorrow for the
information of the house.

"Agreement between the two gov-
ernments as to the services to be un-
deraken by each has yet to be reached,
and many minor matters settled.
It is not anticipated any serious dif-
ficulties in this connection will arise
some time. The settlement of this
question and the establishment of con-
trol in Edmonton will be of great
advantage to the province. It is yet
another justification for confidence
in the immediate future of this pro-
vince."

GOVERNMENT IS NOT CARRYING OUT ITS PLEDGES

The Hon. C. R. Mitchell, leader of
the opposition, in the debate on the
speech from the throne in the legis-
lature Monday afternoon severely cri-
cized the financial policy of the gov-
ernment, declaring that the earlier
pledges for economy had not been
carried out. There had been annual
deficits for the past four years, and
increased deficits, and it was super-
fluous that the province was unconcerned
as to which way it was drifting.
There have been reductions in salar-
ies, but these economies would never
balance the budget, he said.

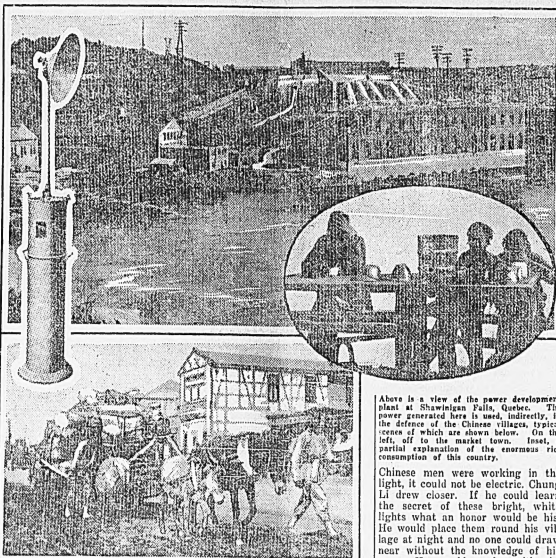

The speaker also lamented the fact
that there was nothing in the speech
from the throne indicating any de-
sire or policy on the part of the gov-
ernment to bring about any reduc-
tions.

Premier Greenfield, who spoke
immediately after the opposition lead-
er, took strong exception to the con-

Canadian Power Defends Chinese Villagers

Now what on earth has power de-
velopment at Shawinigan Falls got
to do with Chinese village life?
You ask. The answer is that it
helps to protect Mr. Chinaman, Mrs.
Chinaman and all the little China-
men from bandits. Yes! it's a long
cry from the waters of the St. Mau-
rice Valley to the interior Chinese
village, but there you are. And it
came about thus. A hard-pressed
Chinese head-man driven to desperation
and from his native village by band-
its from the hills, came down to
Hong Kong, or perhaps it was
Shanghai, and down by the dock-

side saw men of his race working by
night as if by day on the unloading
of one of the giant Canadian Pac-
ific Express steamships.
What wonderful things were these
that could so defy the darkness?
Chung Li drew closer, and saw that
at intervals along the shed in which
the stevedores were working much
light came from little cans that
glowed softly in the breeze.

Now everyone knows that elec-
tric lights are the invention of the
devil and were introduced by the
white races to burn the eyes of
Chinese babies and shorten the life
of Chinese men. Therefore, as

bandits were so numerous, the Gov-
ernment during the year of its term
of office has been unable to balance
the Provincial budget, thus creating
a large accumulated deficit covering
that period, no mention, direct or
implied, has been made in the speech

Above is a view of the power develop-
ment plant at Shawinigan Falls, Quebec. The
power generated here is used, indirectly, in
the defence of the Chinese villages, typical
ones of which are shown below. On the
left, off to the market town. Inset, a
partial explanation of the enormous rice
consumption of this country.

Chinese men were working in the
light, it could not be electric. Chung
Li drew closer. If he could learn
the secret of these bright, white
lights what an honor would be his.
He would place them round his vil-
lage at night and no one could draw
near without the knowledge of his
men. He would confer with the
other head-men of the district.

And so it came about that the
Canada Caribde Company, which
uses the power developed at Shaw-
inigan Falls to fuse coke and lime
into carbide, received an order for
many fine lights. A deputation of
the villagers made a long journey
to Hong Kong to receive the ship-
ment as it was discharged from the
Empress of Russia, and returned,
knowing that as long as the carbide
hung out they were comparatively
safe from the marauding bandits.

There you have the connection.
Shawinigan Falls lighting a Chinese
village and protecting it from band-
its.

From the throne, delivered by the Hon-
ourable, the Administrator of the Pro-
vince, as to the government's policy,
if any, with regard to a reduction in
the cost of government and a readjust-
ment of and possible reduction of pro-
vincial taxation.

This Legislative Assembly is there-
fore of the opinion that some pro-
nouncement of policy relative thereto
should be made.

It is accordingly recommended and
urged that immediate steps be taken
by the government to effect the econ-
omies above indicated, as well as
others, and with that end in view and

Where Does She Get Such Clever Ideas?
OVER their tea-cups they marvelled at the ingenuity of their
hostess—it was really such an unusual luncheon, so dainty

MAPLE LEAF FLOUR
FOR BREAD, CAKE & PASTRY

ITS NEARLY TIME TO MAKE FRIEND OF YOUR AUTO

Get acquainted with the inside of
your motor car. Study its character-
istics. Get into the habit of looking
after it personally as much as possi-
ble. By so doing you will get the
most out of your automobile and you
will find a new satisfaction in own-
ing a car.

In this day of simplified mechanics
the average owner is too often in the
habit of allowing the car to take care
of itself. As a matter of fact, there is
necessity for mechanical knowledge
in the actual operation. Expert engi-
neers have so designed the car that
women can drive it as well as men.
Nevertheless the owner who simply
knows how to start his own car, re-
gulate its speed and then stop it,
while he may never be called on for
further knowledge concerning its
working, is losing a lot of pleasure
which he could have at no expense.

There are thousands of owners who
pay absolutely no attention to the in-
side of their car, and run it until it
stops, no matter how great a strain
the machine is operated under. It is
that class of owners who complain
about the maintenance cost of their
cars.

They not only fail to get comfort-
able riding and they not only lose
time while the car is being repaired
at some garage but they lose the keen
enjoyment which one should get out
of owning a perfect piece of mechan-
ism.

If every owner studied his machine
and learned the details of its inside
mechanism, he would soon become at-
tached to it as is the average sea cap-
tain to his ship or the railroad engi-
neer to his engine.

As a step preliminary thereto, we pro-
pose that provision be made for a
substantial reduction in the amount
paid to members of the Legislature by
way of seasonal indemnity, the same
to be applicable to the present session
of the Legislature."

MAPLE LEAF FLOUR
FOR BREAD, CAKE & PASTRY

Local Druggists Have
Modern Remedy for Colds
A Vaporizing Salve which is Rubbed
Over Throat and Chest for Colds.

When Vicks VapoRub, the "external"
method of treating sore throat, bron-
chitis, deep chest colds, or croup, is
applied over throat or chest, the ingredi-
ents are released as vapors by the body
heat.

These vapors, inhaled with each breath
carry the medication directly to the
affected air passages, loosening the
phlegm and relieving the congestion.
At the same time Vicks acts as a coun-
ter-irritant, stimulating the skin, and thus
helps the vapors inhaled to break up the
inflammation.

Colds are usually relieved over night.

VICKS
VAPORUB
OVER 17 MILLION JARS USED YEARLY

Bilious Headaches
Are Caused By
CONSTIPATION

Once you allow your bowels to be-
come constipated you will be troubled
with bilious and sick headaches.

For relief you must help your liver to
resume its proper functions by remov-
ing the bile that is circulating in the
blood and poisoning the entire system.

MILBURN'S
LAXA LIVER
PILLS

WILL DO THIS FOR YOU
Mrs. Annie Putney, 265 Perth Ave.,
Winnipeg, Man., writes:—"For years
I was troubled with severe bilious
headaches, but since I have taken
your Milburn's Laxa-Liver Pills I
have been completely relieved of my
trouble. I cannot say enough in their
praise."

Paying
The Bills

What subject has met with more consideration, criticism and comment in western Canada during the period of depression than that of payment or of non-payment of bills? It is a subject of interest to practically 100 per cent of the adult population of the country and to many a subject of utmost importance.

Financial writers seem to agree when their arguments are analyzed that general conditions show improvement as debts are liquidated. It is true that statement might be reversed to read that debts are taken care of as conditions improve. They go hand in hand. Whether one be the cause and the other the effect is not so apparent. Sure it is however that the payment of debts on a large scale lets loose a quantity of money which passing from hand to hand stimulates business remarkably.

Paying bills has another far reaching effect than that of putting money into circulation and that is the effect on the credit of the individual.

A man owing another and making no great effort to reduce the debt creates in the mind of his creditors a feeling that confidence was misplaced in ever trusting that man with the loan of the money or the goods as the case may be. If that creditor happens to be a shopkeeper and to have several of his customers treating him similarly, he feels that everything is wrong with the world and becomes most pessimistic. A pessimism is bound to affect his neighbor. He refuses to grant credit to worthy people, fearing that they too will be unfaithful of their promises. Business slackens naturally, as the change from a part credit business to one of cash over the counter cannot fail to reduce volume materially.

On the other hand and this is becoming to be more generally adopted as the correct attitude, many who owe are paying what they can and instead of staying away from the creditors when they cannot pay are seeing them and making any arrangements possible. This has the twofold effect of retaining the good opinion of the creditor has of the debtor and creating a feeling of confidence on the part of the creditor who in turn still trusts his customers and keeps business running along smoothly.

There is an opportunity for each and every one of us who owes any money to help create a better feeling throughout Canada by simply doing his duty by the creditor who had enough faith in him to trust him with money or goods.

Vision of What
\$2 Wheat Could Do
For Western Canada

There is a new western situation. The western problem as it is passing away. We are likely to have new western problems soon, which will probably be problems of growth, instead of one big western problem, which was a problem of rescue.

The old western problem is being settled rapidly, not by any legislation or other controllable changes, but by a change in the basis of the fundamental economic situation of the west. Two-dollar wheat, says Financial Post, might serve as a symbol of the change, but its use as such would be liable to misunderstanding. For, after all, only a small part of last year's crop can be sold at two dollars or better, and there is no great expectation that next year's crop will sell at two dollars or better.

But dollar wheat can be used as a symbol of the basis that has passed, of the basis on which were founded many of the troubles of the west and many of its grievances. And dollar wheat has gone, not in the sense that wheat may not again sell at a dollar a bushel, but gone in the sense that it was part of the essential economic structure of the west. Dollar wheat did seem to be a part of that structure. It seemed for a while as if the west must adjust its whole program to raising wheat to sell at a dollar a bushel on the average, a little more when crops were light, a little less when they should be heavy.

Dollar wheat did not offer attractive prospects. It was not sufficient to enable farmers to escape bankruptcy, nor their debts except by heart-breaking struggle, nor to offer very rich rewards, even to the fortu-

nate. On the basis of average crops, year in and year out, in the better districts, and to good farmers, and to those not too much in debt, dollar wheat did offer a practicable way of life in farming, not too unsatisfactory. It did not offer much more, and to the less fortunate of farmers it did not offer that much. To the west as a whole it offered no great hope of a rapid increase of settlement to make use of the railway, business, and governmental organization already provided.

Upon the raising of wheat, and of wheat for export, prize farming and prize life in general have been and are long likely to be, dependent. The milking of cows, the making of butter, the breeding of hogs, the fattening of cattle, the whole business of mixed farming; all these are very good in their way, but unless we have growing wheat on a large scale, western agriculture must perish, or shrink to such small dimensions that it would seem to have perished.

And it seems now that the world really wants and needs our wheat to a greater extent than it is willing and ready to pay for it. It seems as if wheat, the premier food of mankind, is not likely often, or for long to be depressed in value to the level of feed for livestock. For a while last year, wheat and corn sold on a parity, and a considerable quantity of wheat was fed to livestock. It seems likely that the farmers who raise wheat are likely to be well rewarded for their efforts, and that a country that can grow wheat of such quality and in such quantity as western Canada is going to be a desirable place in which to farm.

Wheat may sell at a dollar a bushel again. That might happen soon, although the world situation is against it happening for a year or more. But whatever comes, dollar wheat is gone, gone as a maximum beyond which the price of wheat might not rise. The west can stand wheat at a dollar a bushel when crops are plentiful if there is a chance of securing compensation in price when crops are light too, but consider that covered in the statement that dollar wheat is gone.

You can look for these things: Profits in western farming. Farmers now on the land expanding their efforts, and the ones who have lately been thinking of giving it up resolve to continue.

Population attracted to the west, whether or not we have an immigration policy. And if we have such a policy, conditions in which its efforts may bring fruit instead of being abortive.

A better class of immigrants than we lately dared hope for.

The payment of many western debts which recently may have seemed hopeless.

Cheaper money for western farmers because of their improved credit.

More business for the railways. Improving financial position of provincial and municipal governments.

A market for the goods of manufacturers.

The west again taking the lead in the rapid development of Canada. The spoken word for the west when they present the west's needs, saying not, "This you must do to save us," but "This it pays Canada to do that development may be still more satisfactory."

This change in conditions brought about by the disappearance of dollar wheat is not yet realized in the west, and can hardly be realized at all in the rest of Canada. It will be some time before realization catches up with conditions, just as realization lagged behind when the west fell into trouble so acute that it was uncomfortably close to being very serious. Only now is the seriousness of the situation in which the west found itself two years ago being realized, just as we are moving on to another basis entirely.

Perhaps it was not a bad thing to be slow in understanding the extent of our troubles. But it will be unfortunate if we are slow in understanding the new prospect that is before us. Canada has been on the defensive against adverse conditions for a long time. The battle has developed, once more she can take the initiative and act on the aggressive.

LIQUOR PROFIT
OVER A MILLION

The net profit to the provincial treasurer from the operation of the Alberta Liquor Act for the seven and a half months of last year from May 12 to December 31, totalled \$1,020,249.34, according to the first annual report of the liquor control board, which was tabled in the legislature Monday afternoon by Attorney General Brownlee.

The gross sales for the period are given in the report as amounting to \$2,632,605.65. The actual cost of the liquor sold was \$1,540,709.20. Deducted from the gross sales is a total of \$21,644.42 for freight and cartage outwards, leaving a gross profit of \$1,070,231.43.

Here and There

The following apt comment on the careless motorist and his ultimate fate comes from the Boston Transcript: "If a freight train at a crossing 'Hiss an auto fair and square 'There's the freight train—Where's the auto?'"

"Echo answers 'Where?'"

Trees at the rate of 20,000 a day have been planted by farmers in Western Canada during the last 20 years, according to a report of the Federal Department of Agriculture. A total of 150,000,000 young trees, the report shows, has been distributed to farmers in that section in 1925.

Canada has entered into negotiations with Germany for a trade agreement which will give her the benefit of the most favored nations agreement. Experts to that country very nearly doubled during 1924 and at the close of the year Germany was practically in the position of being Canada's third best customer.

A co-operative shipment of poultry to New York City, encouraged and handled by the Dominion Poultry Service, Alberta branch, brought good results. The shipment consisted of two refrigerated carloads of turkeys and the shippers received 26 cents a pound for their birds, the New York selling price being 41 cents a pound.

Among the interesting books of the season is "Canada's Great Highway; from the First Stake to the Last Spike," by J. H. E. Secretan, C.E., (published by Thorburn and Abbott, Ottawa). Dealing with the early history of the Canadian Pacific Railway, the volume contains many reminiscences of life in construction days as experienced by the author, who was a member of the company's engineering staff.

Sailing from New York on January 14, the "Empress of France," palatial Canadian Pacific steamship, began her "round-the-world cruise," which is to last 120 days. The vessel was gallily decked with flags and filled with happy passengers eager to enjoy the experience of a lifetime. F. L. Wanklyn and Mrs. Wanklyn, were among those on board. Mr. Wanklyn, recently retired from his position as executive assistant of the Canadian Pacific Railway.

The most novel Christmas card handled by the Montreal post office this year was one prepared for the redoubtable Colonel George Ham, of the Canadian Pacific Railway, by a number of internationally known newspaper artists, creators of famous comic strip characters. In the centre of the card is a photo of the Colonel, while grouped around him, commenting on his good qualities, are signed drawings of Pa Perkins, Tillie the Toller and Mac, Barney Google and Spark Plug, Our Gang and Dumb Dora. Colonel Ham is naturally very proud of the card.

An "electric girl" has been discovered at Kighley, Leeds, England. She is a mill worker, but recently whenever she approached a spinning frame threads began to break and the machine ran as if acting against some magnetic attraction. Directly the girl left the vicinity of the machine it became normal again.

The Colds
And Coughs
Of The Children

Quickly Relieved By
Dr. Wood's
Norway Pine
Syrup

Only the mothers' know how hard it is to keep the children from taking cold; they will run out of doors not properly clad, or have on too much clothing; they play hard and get over heated, and cool off too suddenly; get their feet wet; kick the bed clothes off at night, and do a dozen things the mother can't prevent.

There is nothing so good for children's colds, coughs, croup, whooping cough, or bronchitis as is Dr. Wood's Norway Pine Syrup. It is so pleasant to the taste the youngsters take it without any fuss, and its promptness and effectiveness in loosening the phlegm and healing the lungs and bronchial tubes is such that the trouble is checked before any serious lung trouble can possibly develop. Mrs. Everett E. Keetch, R.R. No. 2, Fredericton, N.B., writes: "My little boy, age nine years, had a dreadful cold which left him with a very bad cough. I tried Dr. Wood's Norway Pine Syrup, and after using three bottles he was completely relieved. It would save all mothers' to use this remedy for their children as it is an excellent medicine."

The genuine is put up only by The T. Millburn Co., Limited, Toronto, Ont.

TALEBEARERS

"I wish," said Captain Grigsby Gregg, "you'd quit broadcasting fibs; you said I had a wooden leg and gutta percha ribs. The man who heard you tell this tale conveyed the same to me, and your excuses can't avail, I'll break you on my knee. Oh, now, by jings, I understand why Widow Weed said 'Nix' when I beseeched her for her hand—'twas due to your base tricks. She'd doubtless heard the tale you'd told, that I've a concrete spine, and that my teeth, which should have gold, are stuffed with Norway pine. Oh, castif, guard yourself, gadzooks! I'm out for blood today! I'll claw your features with my hooks—get ready for the fray!"

"Oh, Gaffer Gregg," I sadly said, "I'll give my heart a wound to note the palties in your head are turning wrong way round. When I would tell a story base about you ribs or hat I'll hand it to you face to face, and you may bank on that. We've lived as neighbors many years, and know each other well, and we should surely greet with jeers such tales as gossie tale. We've gone together to the church, together to the jail, and we should let no man besmear our trust with sorry tale." The gaffer journeyed to a pump where he might soak his head: "I wonder why I'm such a clump, so great a sap," he said—Wait Mason.

GOD BLESS THE BOYS

(By Ida May Dennison)

God bless the boys!—yes, all the boys
Wherever they may be;
The boy with noble thought and clean
The boy with manly form and mien,
The boy whose mother is his queen—
His future we can see.
God bless the boys, the mothers' joys
Wherever they may be!

God bless the boys, the worthy boys,
Wherever they may be.
The boys who dwell in marble halls,
The boys whose lives in lofting walls
Are darkened oft by drunken brawls,
O, fervently pray we,
God bless the boys whom sin decoys,
Wherever they may be!

God bless the boys, the noble boys,
Wherever they may be.
The boy with noble thought and clean
The boy with manly form and mien,
The boy whose mother is his queen—
His future we can see.
God bless the boys, and give them
peace,
Wherever they may be!

God bless the boys, the jolly boys,
From every care set free;
How dull would be this mundane
sphere
Without the boys, the boys right here
We all would have the blues, I fear,
Without their fun and glee;
God bless the boys with all their noise
Wherever they may be!

For Many Years

WE have hammered away at delinquent subscribers in an honest endeavor to bring our lists somewhere nearly up-to-date, with more or less success.

There was a time when one simple reminder was enough to bring delinquents into the office on the run, and we are hoping that those days are not entirely passed away. At any rate we are taking it for granted that all that is necessary in most cases is for us to simply remind you that we wish you to call or remit an amount sufficient to bring your paper up to the current year.

Let this be your reminder.

Make It Read '5'

Just take a look at the label on the front page of this issue and see if it reads "25." If you are behind even a year, let's get things adjusted and start all over afresh in this year 1925, which we are assured will be a big year in every way. From every part of the continent comes the prediction that we are to see "good times" before the end of 1925. One way to make good times come to this office is for our subscribers to pay up their arrears. Follow the golden rule in this matter, and better times will assuredly come your way in the natural course of events.

The Wetaskiwin Times

Producers of Printing of the Better Quality

Victoria Will Say it With Flowers

When Victoria, the evergreen city of the West bids you welcome, which it will whenever you choose to visit the capital city of British Columbia, it will "say it with flowers," and at most unexpected times and places will present bouquets for your appreciation throughout your stay, whatever the season may be.

What an extraordinary city this is. Though very young compared with many other cities on the continent it has, no doubt through the agency of its temperate climate, drawn about itself such a mellowed atmosphere as is usually associated with more ancient places. What ever is ostensibly new is given a covering of a background of foliage and flowers and it soon fits into the general scheme of things Victorian. Even down in the business and shopping districts where there is much coming and going you will find your flowers, suspended, of all

places, from brackets on the street light stands.

And yet it must not be thought that this is a city of gardeners alone although one does wonder in looking over the city and its suburbs that its citizens can find time for anything other than gardening. Those who do business do it in much the same way as it is done in other up-to-date cities of its size and, unless one happens to know them, the stores of Victoria are quite a surprise. As most of the merchandise sold comes over the cheaper water routes, tourists have found it most advantageous to shop there, to the advantage of the merchants and the city generally. On this account, as much as to take care of local requirements, large stores have evolved which in the fallen back upon if ever the sights and scenery fall.

But apart from its own immense gardens and attractions, Victoria is

In the shopping district of Victoria, British Columbia, the "Princess Kathleen," one of two new vessels which are to be placed in Vancouver, Victoria and Seattle service, lined a corner of the Penderway Gardens, which are one of the horticultural sights of the Capital City.

The gateway to a land of enchantment. Hundreds of miles of good motor roads thread Vancouver Island, through the virgin forest in which the biggest firs on the continent grow, winding round mountain peaks and running out again here and there to the shore line.

With its chief city, Vancouver Island is coming into its own as a Mecca for the pleasure and health seekers. For the convenience of the increasing number of tourists who visit the island the Canadian Pacific Railway has built two of the most magnificently appointed vessels on the West coast, to ply between Vancouver, Victoria and Seattle, and for their recreation and pleasure a huge Crystal Garden is being built, to be completed early in spring and to feature the largest salt-water swimming pool on the continent. However, Victorians pride themselves on the fact that their chief attractions are not of an artificial nature which, in these days of publicity bureaus and advertising campaigns, is much more than can be said of many other fashionable resorts.

HILLSIDE

The Social Club will hold a Card Party and Pie Social on Wednesday evening, March 4, at 8.30 p.m. Everybody is welcome.

B. R. Hoskins was a business visitor to Edmonton this week.

Three sleigh-loads, from Hillside went to the U.P.A. card party on Millot on Friday last. All report having an enjoyable time.

The "Stars" will meet as usual on Friday evening at 8 p.m. This being the first meeting in Lent, the members will embark upon a new subject "The Fellowship of Prayer."

Miss Hamilton spent the week-end with her parents at Conjouring Creek.

PENRON PARK

Gordon and Tommy Groves of Calgary, are visiting at the home of their grandfather, Mr. F. Lucas.

Mr. and Mrs. Johnson and family have moved from Larch Tree to the Lucas school district.

Norma and Blanche Nelson spent the week-end with Mrs. L. P. Higgins.

Some of the people from this district attended the Mistletoe Show on Friday night, and report a very enjoyable time.

Hoard—"Well, I guess it was by radio—No—be careful, somebody went to town today and I want you to keep out of his way." We wonder what on we want to be Johnny on the spot as exciting times are very scarce in this neighborhood.

Three young ladies wandered up the C. & E. trail on Saturday afternoon. They were headed for somewhere, but seriously had their doubts about getting there, however, they were rescued and spent a very pleasant hour visiting.

Mrs. Angus McDougall of Telfordville spent a few days last week with Mr. P. Lucas.

Master Keith Groves of Calgary, is visiting his aunt, Mrs. A. B. Chapman, of Palan.

The many friends of Mrs. C. T. Groves, of Calgary, are sorry to learn that she is in the hospital, where she will have to undergo an operation in the near future.

LARCH TREE

A concert and basket social will be held in the Larch Tree school on Friday evening, March 6. Both local and outside talent. Be sure and keep this date open. Admission, gentlemen 25c, which will be refunded to all buying baskets. Ladies, please bring baskets. A good time is assured.

The quilt given as first prize by the U.F.W.A. of Millet has again been won by a Larch Tree resident. This time, Mr. Wood was the lucky winner. Mrs. A. McLean returned least week from Lethbridge, where she has spent the last few weeks with Mrs. G. H. Villett, who has been seriously ill. We are all glad to know that Mrs. Villett is now on the way to recovery.

Mrs. Christie entertained in their honor and a very enjoyable evening was spent by their young friends of the neighborhood.

The following week the members of the Larch Tree Circle were entertained at the home Mr. and Mrs. Christie, at a game of five hundred, which all present very much enjoyed. The honors were carried home by Mrs. J. Binning and Mr. C. Dugger, and the consolations by—we withhold names but note it is good to see these small favors passed around the district.

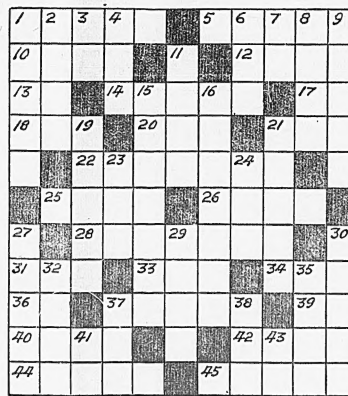

DEMONSTRATED SNOWMOBILE

The Snowmobile attracted a lot of attention in Wetaskiwin on Thursday evening and Friday morning last. The Snowmobile is built on a Ford chassis with the front wheels removed and broad runners substituted. The drive consists of four wheels with caterpillar tread, the two additional wheels being connected in front of the regular drive wheels by an extra axle and springs to the chassis. The Snowmobile seemed to have little difficulty in climbing snow banks, and ran across the deep snow around the city quite easily. It was driven up from Calgary for demonstration purposes, stopping at towns along the route.

Look at your label to see if your subscription is paid up.

Cross-Word Puzzle No. 1

The Times believes its young readers will be interested in the series of Cross-word puzzles beginning in this issue. Perhaps some grown-up readers will find them a source of diversion as well. The correct solution to Cross-word Puzzle No. 1 will be published next week, together with Cross-word Puzzle No. 2.

SUGGESTIONS FOR SOLVING CROSS-WORD PUZZLES

Start out by filling in the words of which you feel reasonably sure. These will give you a clue to other words crossing them, and they in turn to still others. A letter belongs in each white space, words starting at the numbered squares and running either horizontally or vertically, or both.

Did You Ever Stop to Think?

THAT home business institutions that are helping to pay for the maintenance and improvements of the city are entitled to the trade of the people of the home town.

THAT outside business concerns do nothing towards the improvement of the home town.

THAT buying away from home when you can get better service and as good values at home, should be universally discouraged. Every dollar and every activity should be united to make the business of the home town better. Now is the time for us to get busy and make local business better.

THAT everyone of us should take an active and positive stand on all things that go to make local business better.

THAT we all should take a mental inventory and find out how we stand in ability and honesty of purpose and willingness to make Wetaskiwin better and bigger.

THAT no man is a success who only enriches himself. The man is a success who enriches his community.

THAT there is only one town in the world in which to live and prosper and that is the town in which you live.

THAT a good way to boost the home town is to buy from the local business concerns who advertise in local papers.

THAT local advertisers are the people who lead in the things that keep a town moving forward in the march of progress.

G. L. Owen's Auction Sales

UNRESERVED AUCTION SALE

HORSES, CATTLE, IMPLEMENTS AND SHEEP

The undersigned Auctioneer has received instructions to sell by Public Auction on S.E. 28-45-22, 14 miles southeast of Wetaskiwin, 7 miles west and 2 miles north of New Norway, on the old Hamilton farm, on

EDITOR'S WIFE WRITES POETRY

Mrs. Robert Montgomery, wife of the editor of the Puyallup Valley Tribune, extolls the virtues of her ancestors, Mother Eve, in the following lines:

Eve was a wonder? Well, I just guess she never wanted for a Paris dress. She never used a vanity case. Nor bobbed her hair, nor "made up" her face.

Mah Jongg and bridge she let quite alone.

She never buzzed to a saxophone. She hid no coin in her sillon hose. Nor worried Adam about her clothes. She didn't "try-out" for a movie star. And she never drove a motor-car.

While Adam swapped lies at the Crozier's Club.

She kept the kids and rustled the grub. She raked the garden and hoed the spuds;

She planted beans and made all the duds;

She carried the water and chopped the wood;

She managed Ad as all good wives should.

With Women Voters she'd never mix. She never meddled with politics. She did not become a suffragette. Was Eve a wonder? She was, you bet! She's all to the good, you'd better believe!

When there's betting to do—just bet on Eve.

Here and There

Of the 20,000 harvesters who went west this summer over Canadian Pacific lines, 14,000 are known to have returned east, according to C. B. Foster, Passenger Traffic Manager, Canadian Pacific Railway, and it is thought that many others have returned, while several thousand are believed to have accepted positions in the west for the winter.

An indication of the increase in the value of effects being brought into Canada by settlers from the United States is shown in the latest report to the Department of Trade and Commerce. From April 1 to September 30, effects so classified were valued at \$1,129,333, as compared with \$2,064,407 in the same period last year, an increase of \$462,872.

A feature which will add greatly to the attractions of Vancouver, B.C., as a winter resort, to say nothing of increasing its summer allurements, will be the new golf course to be laid out there at a cost of \$120,000, exclusive of land. Work on the course will commence next spring. Fees will be merely nominal, fifty cents being charged for an 18-hole round, \$2.50 for a month's play and \$20 for a year. Play will be open to any member of the public.

Immigrants entering Canada during the 12 months ending October 31, 1924, totalled 154,189, as compared with 126,744 in the corresponding period of 1923-1924, according to the Department of Immigration and Colonization. These figures are more encouraging in view of the fact that the number of Canadians emigrating to the United States has to some extent decreased, while the number returning from the United States is on the increase, according to the department.

On November 20th, Hon. Marguerite Shaughnessy, daughter of the late Lord Shaughnessy, chairman of the Canadian Pacific Railway, performed the launching and christening ceremony at the Clydebank yards of John Brown and Co. when the new mail steamer, S.S. Princess Marguerite, named in her honor, was slipped into the water. The Princess Marguerite is the second of the two vessels recently ordered by the Canadian Pacific for the company's British Columbia coastal service.

An entirely new service between Montreal, Toronto and Winnipeg, operating on the fastest schedule yet established for these cities, was inaugurated by the Canadian Pacific Railway on December 4. The new train, leaving Montreal at 6:15 p.m. daily, and Toronto at 9:45 p.m. daily, reaches Winnipeg at 9 a.m. 39 hours, 45 minutes after leaving Montreal and 36 hours 15 minutes after leaving Toronto. Express shipments are especially benefited, as shipments reach the terminal cities in time for delivery on the second day after leaving, instead of on the third as formerly. Passengers gain a business day and earlier connections for more distant points, on reaching their destinations. As the eastbound train of this service connects direct with the Frontenac for Quebec city, passengers and express bound for that point also gain greatly by reduced time.

Look at Your Label

The Times wishes to draw the attention of subscribers to the label on their paper.

By examining this label you will find your name on one side, and on the other the month and year when your subscription is payable again. This means that you can tell at a glance whether, in order to keep your paper paid up in advance—which saves you Fifty Cents per year—you will need to send The Times \$2.00. We do not wish to strike anyone off the list. If you are struck off it will be your fault, not ours.

Examine your label on this paper now and see if you are in arrears on your subscription!

CANADA'S NEW LINK WITH ALASKA

It is not many years since Alaska was one of those countries whose geographical location was indicated with a grandiloquent sweep of the arm northwards. It has always been a land of mystery, romance and adventure. It has provided the theme for the thrilling tales of novelists and the stirring poems of northern bards. But even though the days of the chivalry and the sword are done, the brief but active span of the Dargovian Dan Magraces and the Lady Lou's, matters of historical reference, the lure of Alaska has not waned, but is as appealing as ever to the hearts of men and women wherein a bit of romance lurks, and that means to everyone.

Alaska is no longer a far off country. It is a very near neighbor to Canada. It will be even nearer this summer. Mr. J. E. Dairymple, Traffic Vice-President of the Canadian National Railway, has announced that commencing on June 22nd, the company will inaugurate a weekly steamship service between Prince Rupert and Alaska and that the ice-burning steamships, "Prince George" and "Prince Rupert," which have already established a reputation as being among the best-appointed vessels on the Pacific Coast, will be engaged in this new service.

Going northward the ships will reach Prince Rupert at 10:30 on Wednesday morning, following the Monday of sailing from Vancouver, and tourists will be given an opportunity to see something of this new Pacific port, as the steamer

Some of the scenes along this magnificent sea voyage are shown in the photographs: (1) A view of Skagway, Alaska, where visitors will be given ample time to see this famous town and also to visit White Horse and the Altin Lake District.

(2) A beautiful sunset scene on the Lynn Canal, which the steamships Prince Rupert and Prince George will thread on their journey into the Land of the Midnight Sun.

(3) The Taku Glacier, one mile wide and ninety miles long—one of the largest and most beautiful glaciers in the world. (4) The Prince Rupert, which with the Prince George, will be used in the Vancouver-Prince Rupert-Alaska service this summer. These boats are ice-burners and are among the finest appointed vessels in the Pacific Coast service.

Is not one of the curious totem poles to be found in the business section of Wrangell, Alaska.

possessing many associations with the period when Alaska was a Russian possession. The next point touched will be Juneau, the capital of Alaska, and a modern city with good motor roads and many points of interest, including the Mendenhall Glacier and mines which have made this country famous. On the way from Wrangell to Juneau there will be an opportunity to see the grandeur of Taku Inlet and the famous Taku Glacier, over a mile wide and 90 miles long.

The ships will arrive at Skagway at seven o'clock Friday morning and will remain there until seven o'clock Saturday night, thus giving ample opportunity to passengers to see this famous town and to visit White Horse and the Altin Lake District. On the south-bound journey the steamers will reach Vancouver at nine o'clock Wednesday morning, making a complete round-trip.

In addition to the Alaskan trip, the tri-weekly service between Vancouver and Prince Rupert will be maintained and also a semi-weekly service to Ansox and Stewart on the Portland Canal, which service has been in effect for some time past. The establishment by the Canadian National Railway of this Alaska steam-boat service will meet the demands of many tourists, and will be a fitting climax to the famous Triangle Four, which comprises Jasper National Park, the Rockies, the Coast Range and the water voyage through the "Norway of America."

Provincial Weekly News Bulletin

Alberta Hens Do Well

The pen of White Wyandotte hens owned by the provincial department of agriculture and entered in the sixth egg-laying contest conducted by the experimental farm at Lethbridge, is leading all other contestants with a wide margin. At the week ending on February 13, the Alberta Department's pen had a total score of 552 for the contest, the next nearest ranking pen being that of T. Edwards of Edmonton, with a score of 494.

Alberta's Excellent Bond Sale

The best price realized by the Alberta government for an issue of Alberta bonds, since before the war, was paid last week, when an issue of \$750,000 highway bonds, 15 years, 5 per cent, was sold to A. E. Ames & Co., Toronto, through H. M. E. Evans of Edmonton, at 99.65, yielding 5.035 per cent. There were seven tenders for the bonds.

New York Interests Buy Gas Co.

New York financial interests, which already control the Northwestern Utilities Company, supplying natural gas

to Edmonton, have now acquired the interests of the Calgary Gas Co. and Lethbridge. The New York firm securing these interests is the International Utilities Corporation. Sir Clifford Sifton and Eugene Coste have relinquished their stock in the Calgary company to the New York syndicate.

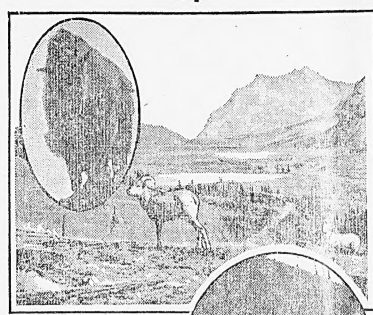

Indians Plan Celebration

The Blood Indians in Southern Alberta are laying plans for an all-Indian celebration to be held at Macleod June 30 to July 4.

Legislature Opens

The Alberta Legislature opened its fifth session on Thursday afternoon, Chief Justice Harvey officiating in the absence of Lieutenant Governor Brett. The two new members, L. A. Giroux, Liberal member for Groulx, and W. T. Henry, Liberal member for Edmonton, were introduced. The debate on the speech from the throne was taken up on Friday, G. L. Stringham, Cardston, moving the reply and A. Matheson, Vegreville, seconding. The debate was resumed on Monday.

Canadian Big Game For Austrian Alps

Here are seen some fine specimens of mountain sheep, photographed near Banff, Alberta. In fact, a mountain goat giving an idea of the fine game animals provide.

A Banff railway station recently a small official gathering of people goodbye to the worthy members of Nature's Own Alpine Club. They had never before been passengers on their journey to their lofty home in the Canadian Pacific Rockies they had watched and heard the trains that day by day shuttle smoothly to and fro on the world's greatest highway. In deed so close to the railway track did they oft times venture that the people in passing trains had the unique pleasure of seeing these hardy mountaineers ascending and descending the cliffs and crags of their native haunts.

For they were the famous "Big Horns," the wild sheep of Canada's great mountain region. Lodged in upholders' crates, accommodated in roomy Dominion Express cars, they were consigned to a large estate high up in the Alps of Austria where they will have liberty to roam in a congenial environment and where, it is hoped, they may in course of time multiply and become as abundant as the flocks that feed on the Alpine meadows near Lake Louise and that wander upon the sunny slopes of Yoho Valley.

Count Hoheisel, an Austrian nobleman, who had travelled in the Rockies and who had seen the wild sheep of that region, believed that given opportunity they would easily

become acclimatized and would thrive well in the highlands of his native country. Anxious to put his theory to the test he entered into negotiations with the Canadian Government and succeeded in securing two trains and four ewes for export to Austria.

In the Canadian Pacific Rockies where "Big Horn" sheep are increasing enormously in numbers there is yet a great plenty of other large game animals. The territory westward of and convenient to Lake Windermere Camp is noted for Grizzly Bear. A comparatively short trail journey northward from Lake Louise brings one into a region where white goats clamber on the steep slopes of the mountains south of Banff there are many elk and moose—a browsing "too," too, there the Spray Lakes sparkle in the sunshine, the finest trout water in Nor' West Canada. And whether you hunt with rifle or with camera the sportsman will find trophies worth the winning in this vast and unspoiled land of sportsman's lure.

Here and There

He tried to cross the railroad track, Before the rushing train; They put the pieces in a sack, But couldn't find the brain!

One hundred British farm families are due to reach British Columbia early next spring. These are the fore-runners of 3,000 families that are to come out to settle in Canada on the land. Provincial and British Government assistance is being given them to get started.

A remarkable statue modelled entirely in ice is to be seen at Quebec. It represents one of the latest or 2300-ton locomotives of the Canadian Pacific Railway, about one-fourth full size and is perfect in every detail. Ice statuary has been brought to a fine art in the Ancient Capital.

Slaters from New York, Boston, Montreal, Toronto and Ottawa will compete with Quebec champions in a great international amateur figure skating contest, to be held in Quebec city February 23-24, for handsome trophies and medals donated by the Frontenac Winter Sports Club. A record attendance of spectators is expected.

Sliding parties over the week-end are being conducted by the Laurentian Winter Club in different points in the Laurentian Mountains, the tours being superintended by a competent skier. To those remaining in Montreal the big six-chute toboggan slide on Mount Royal has an added attraction in toboggan races every Saturday, winners receiving prizes.

That Canada is on the verge of a trade boom which may last until the end of this year was the statement made in Toronto recently by Richard Conway, Vice-President of the Brookline Forecasting Service of New York. The main factor responsible for the upswing of Canadian business, he said, is the opening of the foreign markets to the grains of the past year.

Federal control of United States railroads, adopted as a war measure during the period December 31, 1917, February 29, 1920, cost the country \$1,674,500,000, of which \$1,192,500,000 was total loss, \$555,000,000 estimated expenses and \$15,000,000 was required to reimburse small deficit roads, according to James C. Davis, Director General of Railroads, who has just submitted his annual report.

Remarkable absence of timidity is being shown by wild animals in the neighborhood of Banff, Alberta, it is reported, as a result of kindly treatment. Heavy snows recently brought elk and deer into the main part of the town, where a parade by these animals is not an uncommon sight. They make the rounds of the houses, looking for tit-bits, which are not denied them. One big elk, with a magnificent set of antlers, is as regular on his schedule of calls as the milkman.

The most recent addition to the Canadian Pacific Railway's British Columbia fleet of 28 passenger ships, freighters, barges, ferries and tugs is the British Admiralty Rescue tug, "St. Florence," which will leave Glasgow at an early date to make the 8,500 mile journey to Victoria under her own steam via the Panama Canal. She will be one of the largest towing tugs in Pacific coast waters and is capable of towing the biggest liners making use of ports in that ocean.

Provincial hotelmen will establish a "Cooperative Brewery," probably in Calgary. To this end a fund of \$55,000 has been raised to go towards the purchase of the necessary machinery for a modern brewery. It is likely that the plan will be created and put into operation by the end of this year, providing present plans materialize.

BAD BLOOD? Pimples and Boils? THEN TAKE

Burdock BLOOD BITTERS

Mr. Alf. Curnall, R.R. No. 1, Bonanza, Sask., writes:—"About a year ago I was greatly troubled with pimples and boils breaking out on me. I also had a very tired feeling which made me feel as if I hadn't strength enough to do any work. This was caused from bad blood and a general run-down condition. After taking three bottles of B.B.B. I found that all my troubles had disappeared, and now I can do my household work and find it a pleasure." B.B.B. is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Every once in a while we are accused of missing some piece of news because it did not appear in The Times. We know about it but passed it up. Usually the "news" is something, which, by its publication, could do no good, and only would embarrass someone—and is interesting only as gossip. Don't criticize The Times if it doesn't print all the "news". Some day you may be tremendously glad it didn't.

Enjoyed by five generations of Canadians.

HOCKEY CLUB TO HOLD CARD PARTY

A card party and miniature mixed bonspiel will take place at the curling rink on Friday evening, February 27. All entries must be handed in to C. R. McLundie by the evening of February 26, and there is no limit to the number of rinks entering. Curling will commence at eight o'clock sharp, and cards at eight-thirty. The management of the hockey club is grateful to the curling club for their assistance on this occasion, as the proceeds of the evening will be applied on the hockey club deficit. Everybody come.

COMMUNICATION

We do not necessarily endorse the sentiments advanced by this or any other correspondent under this heading.—Ed.

Yorford, Feb. 21, 1925

Dear Sir—It was with feelings of regret that I read the letter of Mr. J. A. Rickard in your last week's paper, re the C.N.R. S-line. While I have every sympathy with the people living tributary to the proposed S-line it must be remembered that the S-line would be absolutely of no advantage to the people living tributary to the L. & N.W.R. I think Mr. Rickard overstepped the mark when he stated that there had been misrepresentation and when he says the district lying west of the C. & E. is not in favor of the L. & N.W. just what does he mean by the district west of the C. & E. line?

Surely he is not narrow minded enough to think that that strip of country lying between Brightview and Falan contains the only people that have a right to a line, and that they alone should have railway facilities. He says the L. & N.W. would be of no advantage to anyone living within 30 miles west of Wetaskiwin. But I would like to remind Mr. Rickard and his committee that there are people living 70 miles and more west of Wetaskiwin and that they have rights just the same as those living in Mr. Rickard's highly favored district. Mr. Rickard talks of the L. & N.W. running through a rough country of poor clay soil with no prospects of ever becoming a farming country. Well, we must take such statements from whence they come, and put them down as Paddy did the kick from the ball—from his ignorance. Now, Mr. Editor, the Lacombe and North Western Railway Promotion Committee, in their efforts to interest the government in extending the line never in any way, shape or form, tried to block the building of the C.N.R. S-line or any other line for that matter. The reason they want the extension and completion of the L. & N.W. is because the settlers living west of the 5th meridian, would be benefited, and the only line that would develop that wonderful country which I say, although it has a clay soil, is anything but a poor country, but one of the best suited farming countries in western Canada, a country that cannot be beaten for dairying and potato growing. We know it, whether Mr. Rickard and his committee know it or not. Now if the people want the S-line of the C.N.R. built and I believe it would be a good thing if it were built, let them go after the C.N.R. to build it. They say it has been approved and the bonds guaranteed. So far, so good. I would like to remind Mr. Rickard and his committee that we went after the owners of the L. & N.W. when we started in to look for railway facilities—let them do the same, and above all be sportsmanlike. Do your best to get your railway but don't kick the underdog. Why not try the old adage of live and let live. Remember that there are thousands of people living west of the 5th meridian who would not be benefited to any appreciable extent by the building of the C.N.R. S-line, whereas the building of the L. & N.W. cannot possibly do any harm to people living in the wonderful block of country that Mr. Rickard talks about. We cannot all live in that country, but I might remind Mr. Rickard that there are people who used to live in that country that left it and came out here and they seem satisfied. Now, sir, perhaps next time Mr. Rickard's committee meets they will change their mind, and say well, never mind as kicking about the poor heggies out west, let them have their old railway, but let us get together and try and get our railway, let us live and let live.

Yours truly,

Mark Weanham.

Secretary, Wetaskiwin constituency branch of L. & N.W.R. Promotion Committee.

An "electric girl" has been discovered at Kelgley, Leeds, England. She is a mill worker, but recently whenever she approached a spinning frame threads began to break and the machine as if attracted by some magnetic attraction, directly the girl left the vicinity of the machine it became normal again.

OBITUARY

HAGEN—JOHNSON

At the Methodist Parsonage, Wetaskiwin, on the evening of Monday, February 23rd, by the Rev. W. H. Irwin, Miss Helga Johnson, daughter of Hans Johnson of Yorkford, to Mr. Oscar Hagen, of Battle Lake. After a short honeymoon trip the happy couple will take up their abode on Mr. Hagen's farm at Battle Lake.

TOWN TOPICS

Wednesday of this week was Ash Wednesday and was observed as a school and church holiday.

H. J. Montgomery was in Calgary last week attending a meeting of the provincial Liberal executive.

The Scandinavian Hospital Aid will meet at the home of Mrs. Forsyth on Tuesday, afternoon, March 3, at 2.30.

The Peace Hill Chapter, I.O.E., will hold a Violet Tea and Food Sale in the Elks' Home on Saturday, April 4.

The new Seona Creamery opened for business the first of the week, with James B. Watson as manager. See advert. elsewhere.

The regular meeting of the I.O.E. will be held at the home of Mrs. Harold Ingles on Tuesday evening, March 3, at eight o'clock.

Mr. and Mrs. Curt-Smith, and son, Curt Paul, expect to leave shortly on an extended trip to the Old Country, and will be absent several months.

The Ladies' Hospital Aid Society will hold its next regular meeting in the Nurses' sitting room on Tuesday afternoon, March 3, at four o'clock.

The Presbyterian Choir assisted by the celebrated Allen Family are preparing an Old Time Concert to be held in the church, Thursday evening, March 12.

The members of the Mission Friends Ladies' Aid will meet at the home of John G. Berg on Friday, February 27, at 3 p.m. Everyone is cordially invited.

Blackwell's Boot Shop and Gus Hay are moving their places of business to the new premises opposite the post office, where they will be ready for business in a day or two.

The Willing Workers of Knox Presbyterian church will hold their first quarterly tea, and food sale in the Sunday school room on Saturday, March 28th, from 3 to 6 p.m.

A meeting of the Lone Ridge U.F.A. and U.F.W.A. will be held in the Lone Ridge hall on Thursday, March 5, at 8 p.m. A speaker will be present to address the meeting on "The Dairy Pool."

Mrs. A. McLean of Larch Tree, has returned from Leithbridge, where she was called some weeks ago owing to the serious illness of her daughter, Mrs. G. H. Villett. We are glad to hear that Mrs. Villett is now recovering and has been allowed to leave the hospital and return to her home at Iron Springs.

The auction sale season has opened and the auctioneers inform us that there will be quite a number of sales during the next few weeks. In this issue we are giving the list of articles to be sold at several of the sales, and would advise our readers to watch the columns of the Times during the next few weeks for a full list of the sales to be held this spring.

In our last week's issue we made reference to a business deal in which James Brody and Jacob Starr were interested, and this has given some people the idea that the Brody Store in Wetaskiwin was affected by the deal. We have been requested to state that neither of these men has anything to do with the chain of Brody Stores, which includes the Wetaskiwin branch.

A short and pillow case masquerade dance will be held at the Lone Ridge hall under the auspices of the U.F.A. and U.F.W.A., on Friday, February 27, at 8:30 p.m. Tickets, including supper, \$1.00. Plain cloth masks may be used and costumes will be dropped in dressing room. Bring your short and pillow case. No dancer will be permitted on the floor before 10:30 unless in costume.

BUSINESS LOCALS

***At the Angus on Friday and Saturday, "Slaves of The Desert", with an all star cast. Monday and Tuesday, William Desmond in "Riding Pretty" a fast moving western, also a two reel comedy.

A box social and dance will be given in the hall's Hill school on Friday, March 6, in aid of the Bear's Hill Bazaar. Prizes for the best boxes. Hergen's orchestra will furnish the music.

TELEPHONE STAFF HELD GOOD DANCE

A large crowd attended the dance given by the Wetaskiwin telephone staff on Thursday night at the Elks' hall looked very gay for the occasion, being carried out in the blue and white telephone colors. Hanson's six-piece orchestra furnished exceptionally good music. The encores were numerous. Quite a number of visitors attended from Edmonton, Ponoka, Lacombe and Leduc. The proceeds of the dance, which amounted to about \$30.00, will be devoted to charitable purposes.

Methodist Minister Makes Reference To Union for Churches

In his sermon in the Methodist church on Sunday evening, the Rev. Mr. Irwin made reference to the local argument respecting the church union issue. He said he wished the members of the Methodist congregation and all others to understand that notwithstanding certain statements that were current regarding the standing of the local Methodist church, financially and otherwise, in order to influence the vote in the Presbyterian church against union, that a union of the local churches was not an issue in the debate. "While as Methodists we believe in the unity of Christendom and stand as ever ready to enter into any proposals that have as their aim the furtherance of the Kingdom of Christ, there is at present no official, or insofar as I know, unofficial, proposal or negotiation, to unite the two Wetaskiwin churches."

Mr. Irwin explained in continuing, that the vote to be taken was on the single issue, and that alone, as to whether the local church would stand loyal to its church authorities and become a unit in the United Church, or whether they would withdraw and become a unit in the church, which, presumably, is to be brought into existence upon the consummation of union in June next. In neither of these alternatives is there anything involved that would change any relationship that now exists between the two local congregations. No matter which way the votes goes, the local situation will remain as it has been for years, a matter to be dealt with locally. He said that if this fact were understood generally, a lot of statements that are being made would be ruled out as irrelevant.

APPRECIATION

The Telephone Staff wish to thank all those who helped to make their dance a success on the 19th inst. The net proceeds, \$30.00, will be donated to needy people in the Yorkford district.

CELEBRATE WEDDING AT MAGNOLIA

On Friday evening, February 20, our local storekeeper, Mr. A. F. Bigland, gave a supper and dance to celebrate the occasion of his recent marriage to Miss Clara Kjos, daughter of Mr. E. Kjos, well known Wetaskiwin farmer.

Despite the inclement weather, a crowd of approximately 200 persons showed up at the Magnolia hall to welcome Mrs. Bigland and show their appreciation of Mr. Bigland.

After spending two enjoyable hours dancing, supper was served at midnight, after which presents were in evidence, showing the appreciation and esteem which Mr. Bigland had gained during the five years he has been our storekeeper in the community.

At 5 a.m. the crowd dispersed after having had a most enjoyable time. Music was supplied by Mr. Clark and Miss Plesius of Entwistle, and cakes, etc., by Mrs. Casey of Canby, Cafe, Edmonton. Friends attending from the whole locality, Evansburg, Entwistle, Galford, Lake Isle and Darwell being represented.

Your printing should be done in good taste if you are to be satisfied with it. The printing executed at The Times office will compare more than favorably with that of other printing plants.
